### NOTES FROM PROSSER

PROSE R. Valuma Co., W. T., Nov. 20
The work in the 1 date for the sensor I the year is samply telightful.

Work on the Checke division as going forward vigorously. The commissioners appointed by the president of examine and copor upon thirty seven miles of recommy suppered groups appeared to Ainsworth and from that place to Portland.

Since this valley has been made accessable by railroad its miny advantages and its great extent are be or ning law was somewhat to settlers. The best pictiff amongs the airconfiguration is the problem of the mass former than these, most coductive and the most populous of the agri ulpural forticus of the territory.

The water tink and begot at this place are of the agri ultural forticus of the territory.

The water link and lepot at this place are dout com leted. They are a credit to the railroad company and well a lapted to the purposts for which they are intended. This tank is supplied with water from one of the lest wells on the line of the Northern Pac is railroad. It is expected here that the tasca o disision will be built to the aund as specifily as a racticable.
